leigh@leighcampbellstudios.com

Athenahealth, Inc. Watertown, MA *(the premier provider of medical billing, practice management, and EMR services for physicians)*

As a medical animator and illustrator, I create medical illustration modules for patient records and education.

CMR Institute, Roanoke, VA *(a company that creates educational content for pharmaceutical professionals)*

As a medical animator and illustrator, I design, animate, and illustrate e-learning modules and courses for various healthcare companies.

Custom Learning Designs, Belmont, MA *(a company that creates customized quality educational materials for the pharmaceutical industry)*

As a medical animator and illustrator, I develop numerous computer based illustrations and animations for pharmaceutical clients such as Pfizer, Wyeth, and Bristol-Myers Squibb.

Rhode Island School of Design Continuing Education, Providence, RI *(one of the top design schools in the world)*

As a faculty member of the CE department, I taught several classes ranging from “Medical Illustration” to “Photoshop for Illustrators”.

Electronic Publishing Services, New York, NY *(a leading illustration and design firm in the publishing industry)*

As a medical illustrator, I created numerous computer based and traditional illustrations for medical and biological textbooks.

Medical Multimedia Group, Missoula, MT *(a company that designs and creates internet-based, print and multimedia information tools for medical practices and institutions)*

As a medical illustrator, I created numerous computer-based illustrations for companies use in poster images, and internet based media.

LeadingMD.com, San Clemente, California *(a web site development resource that specializes in Orthopedics related companies)*

As Senior Medical Illustrator, Animator, and Art Director, I developed custom computer illustrations, animations and website content for over 50

orthopedic practices nationwide. My work can be viewed at <http://www.leadingmd.com>.

Emory University, Atlanta, GA (*one of the top medical universities in the world*)
As Senior Multimedia Designer and web developer, I produced presentation graphics, websites, medical illustrations and content database for the Department of Dermatology.

Adam.com. Inc., Atlanta GA – (*Adam is a leading creator and syndicator of unique healthcare content and tools to online destinations*)
As a Medical Illustrator, I worked with the team that developed online products including the Illustrated Encyclopedia. I produced illustrations, interactive tools and animations that can be viewed at <http://www.adam.com> and <http://medlineplus.gov>.
